The park is particularly known for the abundance of Ancient Baobab trees (the largest trees in the continent) which fill the landscape and dwarf the animals next to them. The river of the park is full of wildlife ranging from a large variety of birds to lions, leopards, zebras, giraffes, buffaloes, antelopes and, of course, elephants. In fact, the park has the largest concentration of elephants in the whole country and provides unique chances to observe the interaction between elephant families. The lunch area is fascinating, boasting an observatory with amazing views to the river and wildlife (with good chances of seeing a hunt while having your picnic). After an early breakfast, depart towards the most famous National park in the World, the Serengeti. The driving itself, although long, is spectacular. This will be an unforgettable moment for anyone seeing it for the first time. As you progress well into the Serengeti, you will see why the name means, in local language, "endless plains".

The park has 6,900 sq. mile (18,000 sq. km) and for most of it, the plains will stretch to the horizon defying your senses and perception of distances. It is the home of the Great Migration and to 2 million wildebeests, hundreds of thousands of zebras and all kinds of antelopes. As for Big Cats and large predators, it's the place of choice to look out for lions, cheetahs, leopards, hyenas, with many television scenes like the famous river crossings having been filmed in this park.

Day 4 , full game drive Full days in the Serengeti National Park.

We are completely flexible with your preferences and this day will be organized according to your wishes. On every day of the safari, your guide will discuss with you the best timings for you, including the game drives and the wake up time. The crater spreads for 102 sq. miles and has 2,000 ft high walls, making it virtually a Noah's ark and inhabiting almost every species of wildlife that is indigenous to East Africa. It's one of the very rare locations in the whole continent where you can witness the black Rhino.

The crater has a river, several swamps, a soda lake with a great concentration of flamingos, a forest and open plains. It's also famous for its elephants which, are the largest in the world and have huge tusks. Ngorongoro Crater is truly a Wonder of the Natural World.

Today will be a very special and different day. You will wake up very early, just before sunrise, and follow your guide until he finds the Hadzabe tribe, one of the last true nomadic tribes in Africa. After some explanations about the tribe, you will join them in their daily morning activities.

This experience is out of the beaten track and does not feel touristic by any means. The photographic opportunities are out of this world. This tour will definitely be a highlight of your safari. The experiences you do with the tribe can either be joining the men in their daily hunting, or the women in their fruit gathering session. In either of them, you will learn about many aspects of the hadzabe way of living.

After finishing the activities with the tribe, we will visit the beautiful Lake Eyasi, a season shallow salt lake on the floor of the Great Rift Valley and then return to Arusha.
